PRODUCT CARD

MANAGING COLLECTIONS

Cash Management

> Your challenges

Your company wishes to be present in its export country without having to manage a local structure and accounts abroad while offering the use of local payment services to your customers.

You also want to improve your debt recovery in Europe, to be perceived as a local player, to increase your commercial credibility and to decrease delay in your payment collection.

Processes abroad can be complex and expensive, and the language barrier can sometimes slow down the development of your export activities.

> Product description

Collect-4-You is a simple solution to collect your flows in Europe and strengthen your position as a local player through:

- The use of local means of payment by your customers without having to open and manage accounts abroad.
- The publishing of invoices and gentle reminder process in your customers' language.
- The reconciliation of invoices with enriched, harmonised and structured bank statements.
- The decrease of your collection delays and the optimisation of your treasury.

> Product functionalities

The Collect-4-You solution offers a wide range of possibilities, from uploading your invoicing information to having customised invoices sent to your clients. It allows your clients to pay their bills locally, using their preferred payment instruments. Collect-4-You then handles the centralisation of your funds, while you can keep track of your incoming payments at all times via the portal.

> User benefits

- **Flexibility:**
 - > Customisation of invoices and/or gentle reminder process
 - > Tailor-made solution per country
- **Simplicity:**
 - > Easy reconciliation thanks to enriched, harmonised and structured bank statements
 - > Easy implementation
- **Quick collection cycle:**
 - > D+1 for collections in EUR
 - > D+3 for collections in other currencies
- **Accessibility:** Status of payments, reconciliation of invoices and gentle reminder process on online portal.
- **Delegation of activities:**
 - > Multi-language service
 - > Respecting local regulation
