

Collect-4-You

published on 25.09.2014

Collect-4-You is a simplified solution for collecting your foreign cash flow in Europe. Now available to the French market, it will be developed in other countries in the near future.

Description

Your company wishes to be present in its export country without having to manage a local structure, without having to manage accounts abroad while offering the use of local payment services to customers.

You also want to improve your debt recovery in Europe, to be perceived as a local player, to increase your commercial credibility and to decrease delay in your payment collection.

Processes abroad can be complex and expensive, and the language barrier can sometimes slow down the development of your export activities.
